All payments shall be made subject to verification of the invoice.

8 Claims for Defects and Recourse

8.1 Acceptance takes place subject to inspection for the absence of defects, in particular also in regard to correctness, completeness and suitability for use. We are entitled to inspect the contractual deliverable to the extent that and as soon as such inspection is feasible as part of the regular course of business; we shall report any defects detected immediately upon discovery thereof. To this extent, the supplier waives the objection of late notification of defects.

8.2 The statutory provisions concerning quality, material or legal defects shall apply unless otherwise provided below.

8.3 We shall be entitled to choose the type of supplementary performance. The supplier shall be entitled to refuse the type of supplementary performance chosen by us subject to the prerequisites of § 439 para. 4 German Civil Code (BGB).

8.4 In the event that the supplier should not start curing the defects immediately after our request to do so, in urgent cases and in particular in order to prevent imminent danger or additional damage we shall be entitled to carry out such remedial action ourselves or have it carried out by a third party, always at the expense of the supplier. Claims pertaining to material defects are subject to a two year statute of limitations, unless the good has, in accordance with its usual intended use, been employed in a building structure and has caused such structure to become defective; in this case the statutory statute of limitations shall apply. The statute of limitations for claims pertaining to material defects begins to run with the delivery of the contractual deliverable (transfer of risk).

8.5 In the event of legal defects, the supplier shall additionally hold us harmless from any potentially existing third party claims. The statute of limitations for legal defects is ten years.

8.6 For parts of the delivery that have been refurbished or repaired within the period of the statute of limitations applying to our claims in respect to defects, the statute of limitations shall start to run again at the time when the supplier has fully satisfied our claims to supplementary performance.

8.7 Any costs arising for us as a result of the defective supply of the contractual deliverables, in particular freight, travel, labour or materials costs or costs in respect to incoming goods inspections over and beyond what is customary shall be borne by the supplier.

8.8 In the event that we should be obliged to take back products manufactured and/or sold by ourselves as a result of the defectiveness of a contractual deliverable provided by the supplier, or if our selling price has been reduced or any other claims have been made against us in such respect, we reserve the right to initiate recourse against the supplier, and the deadlines otherwise required for this procedure shall not apply to our rights in respect to such defects.

8.9 We shall be entitled to demand compensation from the supplier for any expenses arising for us in regard to our client in the event that our customer should have a claim against us in respect to compensation for expenses necessary in connection with supplementary performance, in particular as concerns freight, travel, labour and materials costs.

- 8.10 Notwithstanding the stipulation in Clause 8.4, the statute of limitations shall, in the cases referred to in Clauses 8.8 and 8.9, become effective at the earliest two months after the date on which we satisfied the claims addressed against us by our customer, but at the latest five years after delivery by the supplier.
- 8.11 In the event that a material defect should become apparent within six months since the date of the transfer of risk, it shall be assumed that the said defect was already present at the time of the transfer of risk, unless such assumption were incompatible with the nature of the good or of the defect.

9 Product Liability and Recalls

In the event that a claim should be made against us as a result of product liability, the supplier shall be under the obligation to hold us harmless against such claim to the extent that and insofar as the loss were caused by a fault in the contractual deliverable supplied by the supplier. In cases of fault related liability the above shall however only apply if there has been fault on the part of the supplier. To the extent that the cause for the loss or damage lies within the supplier's scope of responsibility, it shall also bear the burden of proof. In the abovementioned cases the supplier shall assume all costs and expenses including those of potential legal proceedings or recall actions. In all other respects, the pertinent statutory provisions shall apply.

10 Performance of Work

- 10.1 Persons carrying out work on our sites in performance of the contract shall comply with the respective stipulations of the pertinent plant regulations and our addendum "occupational health and safety regulations for third party workers".
- 10.2 Liability, irrespective of the legal basis, for accidents suffered by such persons on our plant facilities shall be excluded unless caused by intentional or grossly negligent breach of duty on the part of our agents or legal representatives, in case of deceit, in case of breach of a guarantee given to supplier, in the case of death, physical injury or damage to health or in the event of liability claims in accordance with the German Product Liability Act (ProdHaftG).
- 10.3 Prior to start working the supplier shall study all applicable stipulations of our respective pertinent plant regulations and our addendum "occupational health and safety regulations for third party workers" which will be provided to the supplier upon separate request. The supplier shall perform trainings to the workers dedicated to conduct work on our site and shall give evidence to us as regard the training prior to the time the work at our respective site commences.
- 10.4 In case the use of subcontractors is approved, the supplier shall contractually oblige these approved subcontractors to abide by the obligations to study and train all applicable stipulations of the respective plant regulations and our addendum "occupational health and safety regulations for third party workers".
- 10.5 Our current addendum occupational health and safety regulations for third party workers shall apply additionally for the use of third party workers.

11 Provision of Materials

Materials, parts, containers and special packaging provided by us shall remain our property. Such items may only be put to their intended use. The processing of materials and assembly of parts take place on our behalf. It is mutually understood that, to the extent of the proportion of the value of the materials provided by us to the value of the overall product we are joint owners of the goods produced using our materials and parts, and that to that extent the supplier holds such items in custody for us.

12 Documents and Confidentiality

- 12.1 Any and all business or technical information rendered accessible by us (including features that could be concluded from e.g. objects, documents or software thus provided, as well as other knowledge and expertise) shall, for as long and insofar as it is not demonstrably in the public domain, be held confidential in regard to third parties and shall, within the supplier's own operation, be made available only to persons with a need to know by virtue of their necessary participation in work leading to the deliveries to be made to us and who shall in turn also be subject to a duty of confidentiality; such information shall remain our exclusive property. Without our prior written consent such information shall not, except in connection with deliveries to ourselves, be reproduced or used commercially. Upon our request, the supplier shall either destroy or return to us all information originating from us (if applicable including any potentially generated copies or notes) as well as any items on loan, without delay and in complete condition. We reserve all rights concerning such information (including copyright and the right to file applications for industrial protection rights such as patents, utility models, semiconductor contactors/protection etc.). To the extent that we were to have gained access to such information from third parties, we reserve the same rights in favour of such third parties.
- 12.2 Products manufactured according to documents generated by ourselves, such as drawings, models and the like, or following our confidential information or using our tools or reproductions thereof may not be used by the supplier either for its own purposes or for the purposes of offering or supplying them to third parties. The same shall apply, mutatis mutandis, to our printing orders.

13 Place of Performance

The place of performance shall be the place to which the goods are to be delivered in accordance with our contractual specifications.

14 General Provisions, Venue, Applicable Laws

- 14.1 In the event that any provision of these General Terms and Conditions of Purchase or of any further arrangements should be or become invalid (whether in part or in total), such invalidity shall not affect the validity of the remaining provisions thereof. Instead of the invalid provision, the relevant statutory provisions, if any, shall apply. However, insofar as adherence to the contract as a whole would represent an unreasonable hardship for us or the supplier, even taking into account the changes provided for in sentence 2 above, the contract as a whole shall be invalid.
- 14.2 If the supplier is a merchant within the meaning of the German Commercial Code (HGB), a legal person under public law or a public legal special fund, exclusive – also international – jurisdiction for any disputes arising under or out of the contractual relationship underlying these General Terms and Conditions of Purchase shall be Bergisch Gladbach. We shall, however, also be entitled to bring an action against the supplier, at our choice, either at the supplier's general place of jurisdiction or at the court having jurisdiction at the place of performance of the delivery obligation.
- 14.3 These General Conditions of Purchase as well as any contractual relationship between us and the supplier which is based on these General Conditions of Purchase shall exclusively be governed by German laws. The United Nations' Convention on Contracts for the International Sale of Goods (CISG) shall not apply.
